PUBLIC SAFETY OFFICIAL SEEKS MOTORISTS HELP OVER FOURTH

MIDLAND — Major Leo E. Gossett, Commander of the 49 county, Midland Region of the Texas Department of Public Safety asked each individual motorist for their sincere help to save their own life as well as the lives of the "other fellow" this July 4 weekend.

"Operation Motorcade" will begin at 12:01 a.m., Friday, July 3 and end at 11:59 p.m., Sunday, July 5. It has been estimated that during this three day period 32 persons will lose their lives in traffic accidents in Texas. "This is only an estimate," explained Major Gossett, "and with the aid of every persons that drives or walks, we can come well under this estimate."

"Our accident statistics in Region 4, as well as statewide show that over 50% of the fatal accidents are one vehicle accidents. Our records also show that in almost every fatal accident, there was one or more violations of the law. The leading violations were: Speed too fast for conditions, driving while drinking and wrong side of road. Fatigue also is a big contributing factor to our accident picture," stated Major Gossett.

The Highway Patrol Service will be strengthened by the License & Weight Service and

the Motor Vehicle Inspection Service in an effort to keep the estimated deaths from occurring.

In 1963, there were 2,729 people killed in Texas traffic accidents; this was the worst year ever recorded in Texas traffic history. Compared with the same period in 1963, we have a 15% increase in deaths and will probably have over 3,000 persons killed in Texas by the end of the year if we do not turn the trend downward.

Major Gossett stated, "If each individual would make his or her driving a personal responsibility we could reduce the estimated 32 deaths for this period and save many lives throughout the year."

Holiday Lodge Plans Open House Sunday Afternoon

TELEVISION ROOM AT HOLIDAY LODGE — Paul Buchanan, administrator and member of the corporation of Holiday Lodge, Inc., which will open Sunday, is pictured above in the television room of the new home for senior citizens. Wood paneling further accents the decor of the room which features a wood-burning fireplace. To the left of the draped window is a glass door which opens on the fenced-in patio.

Holiday Lodge, home for senior citizens, will be officially opened here Sunday, July 5.

When the public is invited to open house from 2:30 to 5 p.m. The home, located on Southwest Ave. F between Southwest Fourth and Fifth Streets, will be operated by Mr. and Mrs. Paul Buchanan, formerly of Estelline. Their daughter, Mrs. Tommy Hunt, will be office and personnel manager.

The "T" shaped, brick-vener structure is of fire resistant construction and is on ground level. The front of the building is 264 feet long and was built at an estimated cost of \$200,000 to construct and equip. It is designed for future expansion to meet the needs of this area.

The home was planned and designed with the resident's comfort and welfare in mind. Large eight foot hallways will be equipped with hand rails for resident's convenience and safety. The spacious halls also provide for easy flow of traffic for residents, visitors and nurses.

Early American furnishings give a home-like atmosphere to the residents' rooms, eating area and entertaining rooms.

The dining room, designed for group eating, features large oval maple tables with matching chairs. The television room

includes a wood-burning fireplace and overlooks the fenced-in patio.

At the entrance of the building is a large room with living-room furnishings to provide a visiting area for residents who prefer to visit with their guests there.

Each room is equipped with built-in lavatory and dressing table television outlet for private telephone, nursing call system with light and voice communications, and individual toilet facilities.

Other features of the home will be a game room, beauty and barber shop facilities, and both bath and shower equipped for wheel chair and stretcher patients.

The staff will include Licensed Vocational Nurses and patients will be able to receive professional medical nursing care under orders of their own doctors.

The modern-equipped kitchen with walk-in refrigerator and freezer will be able to handle special diets as well as offer a well-balanced menu. The kitchen will be under the supervision of Mrs. Buchanan.

The home is licensed by the State Department of Public Health and will participate in the Texas State Department of Public Welfare Vendor program.

A committee of the Business and Professional Women's Club, with Miss Lennie Greenway as chairman, will be serving refreshments during the open house. The Board of Community Development is sponsoring the event.

JULY 4th INDEPENDENCE DAY

Their rallying cry was the stirring ultimatum of Patrick Henry: "Give me liberty or give me death!" . . . their signal, "the shot heard 'round the world." They were the spirit of 1776, a spirit that has since transcended the times that nurtured it, and the nation that gave it birth. It is a spirit that is timeless and universal, the essence of man's need to be free and the master of his destiny. This spirit of 1776 won independence for the American colonies and forged them into a great Nation; it lives on in 1964, in the hearts of all men who love freedom, everywhere.

Courtesy Is Key To Safe Boating

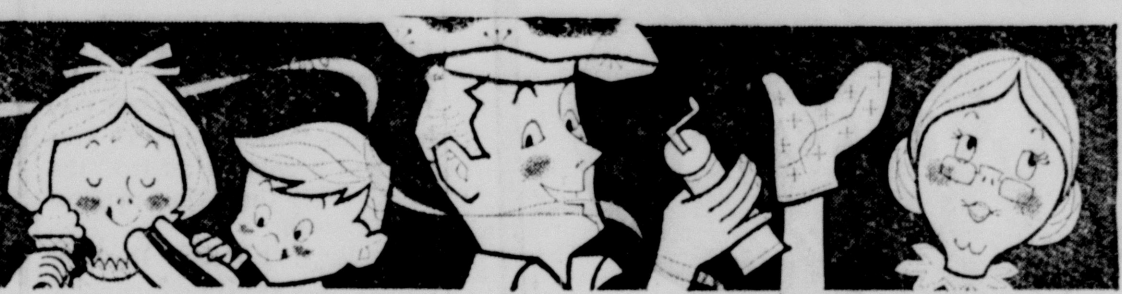

AUSTIN, TEX. — The Texas Safety Association says that courtesy on the water is the key to safe boating. To be a courteous boater, remember that sailboats and rowboats have right-of-way over power craft in almost all cases—but if you're aboard one of these crafts, do not abuse the privilege. Keep clear of large commercial government vessels, and pilot to the right on all waters.

Everything is growing in the hot summer sun, including the weeds. Crops look pretty at this writing, and as usual all farmers are busy, but it will soon be time that they should have a breathing spell.

Family night was celebrated last Wednesday night at the church, having ice cream and cake after the prayer services. Since it was served on the lawn behind the church, after eating a fill of ice cream all were wishing for a wrap of some kind. A weiner roast was suggested for next time, maybe it would not be so cold.

Mr. and Mrs. Kenneth Fugua and children, of the state of Washington, have been visiting several days with Mr. Fugua's sister, Mrs. H. L. Ford and family. Sunday they all went to Dallas for a reunion of their family.

Mr. and Mrs. Elmer Joiner made a quick trip to Odessa, last Thursday afternoon, to spend the night with their son, Mr. and Mrs. Buck Joiner and children.

Mr. and Mrs. Clois Henry and children came over from their new home in San Angelo, Saturday afternoon, to eat supper with his parents, Mr. and Mrs. E. A. Henry, returning home that night. Mrs. Henry was telling about the little grandson, John, age four, who loves to catch all kinds of bugs, frogs, etc. Recently he caught a stinging scorpion, much to his sorrow.

Mr. and Mrs. Winson Gray went to Graham, Sunday, to attend a family reunion of Mrs. Gray's relatives.

Mr. and Mrs. Hill, of Jal, New Mexico, and three children, were visitors of the Jack Wright family last week, they were also guests at the ice cream supper Wednesday night, at the church.

Another guest Wednesday night was Raymond Nichols, of Hamlin, who came with Buster Mackey, who is visiting with the Grays.

Last Thursday was the Rally Day for the Jones County H. D. Clubs, which was a very enjoyable day, as this writer was one of those attending. The highlight of the day's program was a colored girl, soloist, Betty Jean Williams, who was a 1964 graduate of Anson High School, who was presented by the Sunshine Club, of Anson, with Mrs. Ruth Pittard accompanying her on the piano. Betty Jean has a wonderful voice and our wishes go with her as she enters college, she could go far with a voice like hers, if she has a few lucky breaks.

Residents at Holiday Lodge will have a choice of recreation areas. A room with wood burning fireplace just off the dining room includes a television set for the residents' enjoyment. The room is furnished in Early American furniture and overlooks a fenced-in patio. At the entrance of the new home for senior citizens there is a sitting area where residents may entertain their company if they wish.

A special room on the south wing, designed as a game room for table games, will be used also for hobbies and supervised hand crafts.

The largest chunk of quartz (70 tons) was found in Russia.

PLAN ACTIVITIES AROUND SAFETY

AUSTIN, TEX. — Plan summer activities for youngsters with safety in mind. The Texas Safety Association reports that well-planned recreational activities include safety precautions. Don't spoil a memorable summer by forgetting to put safety first.

LOBBY OF HOLIDAY LODGE—Visitors and guests at Holiday Lodge will be welcomed in the living room furniture arrangement in the entrance of the new home for senior citizens. The residents may entertain their guests here or in their rooms. The Early American furnishings have been grouped into two conversational areas at the entrance of the home.

DINING ROOM FOR GROUP EATING—The large dining room at Holiday Lodge, furnished in Early American, will provide cheerful atmosphere at mealtime for residents. Six large oval maple tables with matching captain's chairs will seat six persons. Those who do not take part in group eating will be served in their rooms.

Beauty Needs Considered in New Holiday Lodge

Beauty needs have also been considered in the planning of the new home for senior citizens. A shampoo room at Holiday Lodge will be used for the care of the hair of women residents. The facilities, shampoo board and dressing tables, will be used by local beauticians at the request of the guests at the home.

The room will also be used by the nurses for shampoos for those who do not wish professional styling.

Arrangements have also been made for the men residents to take care of their barbering needs.

Three Types of Rooms Available In Holiday Lodge

Three types of rooms have been included in the planning for guests of the new Holiday Lodge opening this week.

The residents will have a choice of rooms to fit their needs. Private and semi-private rooms will be available for both bed and ambulatory guests. Dormitory-type maple beds are used for ambulatory residents.

The rooms to be used for bed patients feature decorator-type hospital beds and serving trays. The beds have adjustable mattress levels and adjustable side rails.

All rooms are available in both semi-private, two beds to a room, and in private accommodations, with individual bathroom facilities.

A built-in vanity with lavatory is in each room. A large mirror above the vanity is well lighted for dressing table convenience.

Recent Paving Makes for Easy Access to Lodge

Paving recently completed in Southwest Hamlin makes the Holiday Lodge easily accessible on paved streets.

The new home for senior citizens is located on the corner of Southwest Fifth at Avenue F. Pavement extends from Southwest Fifth north one block.

Visitors here for the open-house Sunday afternoon who come down West Lake Drive may travel south on Southwest Ave. E. to Southwest Fifth and then turn west one block to Holiday Lodge. Those driving on South Central will turn west on Southwest Fifth and travel to Southwest Ave. F.

Stainless Steel Kitchen is Pride of New Rest Home

Meals for the residents of Holiday Lodge will be prepared in an immaculate stainless steel kitchen. The kitchen, built to Texas Department of Public Health specifications, features stainless steel cabinet tops, steam table, sinks, freezer, refrigerator, and dishwasher.

Mrs. Paul Buchanan will be kitchen supervisor. Meals will be a well-balanced menu. Special diets will also be prepared for the residents as prescribed.

The large walk-in refrigerator with freezer space will supplement the 28 cubic foot freezer and the double door refrigerator located in the kitchen in providing storage for perishable foods.

The equipment for the kitchen was installed by West Texas Coffee and Equipment Company of Abilene.

PHILOSOPHER CLAIMS TO HAVE WORLD-WIDE SCOOP ON RESIGNATION IF NIKITA KHRUSHCHEV

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route 1 claims to have some inside information this week.

Dear editor:

I never was much for trying to be first with the news, I figure yesterday's newspaper is as full of news as today's if you haven't seen it yet, or last week's too for that matter, but since editors seem to go for such things, I am pleased to enable The Herald to break the news world-wide that Premier Khrushchev of Russia is going to resign.

I don't know why all the wire. Speaking in Denmark last week, he said: "If Russia's farm problems aren't solved in the next seven or eight years, I will resign."

This makes it definite. No country's farm problem was ever solved in seven or eight

years, and as far as I can tell, not in seven or eight centuries either. I've never seen a farm problem that couldn't outlast any man or any country.

No farm problem is ever really solved permanently. Most of the time you just plow around it or move to town and take up barbering or open a law office.

However I will say this for Mr. Khrushchev. You notice he didn't say fifteen or twenty years ago he'd resign from his party if it didn't solve the farm problem in seven or eight years. He waited till he was 70 years old, and in eight more years he'll be 78 and it'll be time to resign anyway.

The trouble with the farm problem is that its main ingredients, land and weather, aren't members of any organized system of government.

If Mr. Khrushchev plans to resign in despair, let him. I

intend to stay right here with this Johnson grass farm and its unsolved problems. I've found that if a man puts his hind to it, he can be just as much a problem to his farm as it is to him.

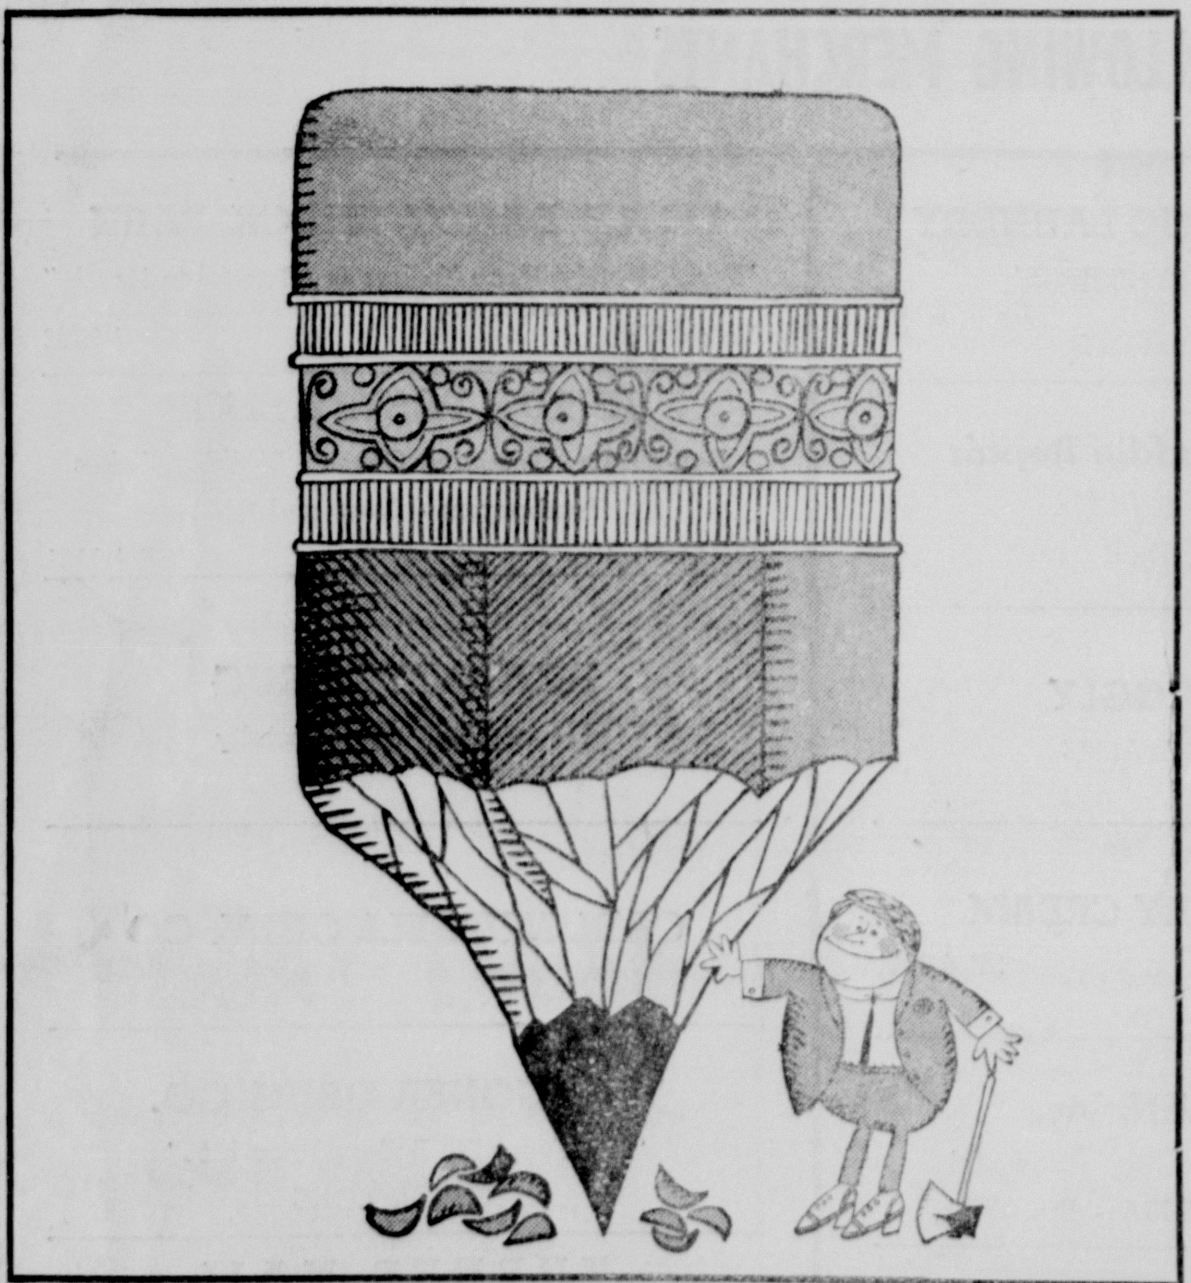

Yours faithfully,
J. A.

BE COURTEOUS TO TOURISTS

AUSTIN, TEX. — The Texas Safety Association urges Texas drivers to display courtesy to tourists in our state. Many of them will be driving on our streets and highways for the first time and frequently slow down in traffic to check road signs and street markings. Be patient and courteous to these drivers — you may be traveling in their state some day and need the same kind of courtesy.

The mamba of the African forests is a snake that licks its face and bites its victim in the face or shoulder.

BEACHED... and forgotten!

This old forgotten boat is almost buried in the reeds. Can this boat in any way be compared to our talents? What of these talents that God has given us? Have they been beached, forgotten, buried?

Heaven expects us to help in this matter of creating a better world where brother helps brother by using to the fullest extent the talents He has bestowed upon us. God always provokes and prods mankind to do good works, and accomplish great things. And He says that if we dedicate ourselves to this matter He will help. But the decision to use our talents and develop them is our choice.

Attend church this Sunday and begin to learn how God would have you use these gifts He has given you.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — Traffic accidents will kill 32 persons in Texas over the three-day July 4 weekend, if Texas Department of Public Safety estimates prove correct. DPS Director Homer Garrison Jr. urges Texans to make the July 4 holiday weekend the turning point away from a two-year upward trend in fatal traffic accidents.

Garrison describes the present traffic situation as "critical."

"Operation Motorcade" will be in effect from 12:01 a.m. on July 3 through Sunday, July 5, he announced, "in an effort to focus public attention on added hazards of holiday road traffic and to encourage safety consciousness among drivers."

Additional highway patrolmen from the license and weight and motor vehicle inspection service will supplement the regular patrol staff over the holiday period.

NEW AUTO INSURANCE RATES SET — Texas automobile owners will pay less for auto insurance beginning August 1.

State Insurance Board and industry spokesmen agreed on the new rates, which will average 1.2 per cent cheaper statewide than last year.

Board estimated motorists will save \$3,000,000 in premiums compared with 1963. However, rates will vary from area to area.

Liability insurance rates reflect a statewide increase of 3.8 per cent, and medical payment coverage will increase about 8.7 per cent. Collision coverage will be reduced .5 per cent.

Overall reduction in rates is due primarily to a 15.5 per cent cut in comprehensive coverage, due to low wind and hail damages last year.

AUSTIN, Tex. — U. S. Supreme Court's decision ordering both houses of state legislatures be selected on strict population basis will have a far-reaching effect on the Texas Legislature, particularly the senate.

In the upper house, no county presently is entitled, by the Texas Constitution, to more than one senator. Lt. Gov. Preston Smith noted that under the

new ruling five of the heaviest populated counties would be entitled to 12 of the 31 state senate seats, leaving 19 senators for the other 249 counties. This would create some senatorial districts 300 miles wide. Senate districts now vary from 147,454 to 1,200,000 population.

"The high court's laudable aim of equal representation for all citizens cannot be maintained in such circumstances," the lieutenant governor said. "Equality will be theorized only. No senator could serve such a great area as adequately at three or four senators (or even one) can serve a single county."

Lt. Gov. Smith promised to ask other lieutenant governors to petition Congress for a review and "practical relief." A similar resolution may be brought before presiding officers of House of Representatives by Texas House Speaker Byron Tunnell. However, it is doubtful how Congress could intervene except by submitting a constitutional amendment spelling out authority for states to have real bicameral (two-house) legislation if they want to.

Texas legislative committee already is at work determining how best to comply with a prior Supreme Court decision ordering congressional districts be formed on the basis of population only. Its work may be expanded to include a look at legislative districts as well.

OIL PRODUCTION ROLLED BACK — July oil production will be cut back to the lowest level since March 1963, by order of Texas Railroad Commission.

In response to purchasing forecasts by 13 major companies, the Commission set 27 per cent potential, or 2,788,685 barrels daily, compared with the present 2,845,571 barrels.

Presidents of five Texas producers associations declared the decision, "regrettable," and said it would hamper attempts to get the U. S. Congress to effect a "very substantial reduction" in oil imports.

Commissioners also scheduled a July 16 hearing on the 1947 yardstick for fixing oil field allowances.

HIGHWAYS — Texas highways are now valued at \$4,500,

000,000, Chairman Herbert C. Petry Jr. of the Highway Commission announced.

Petry said every effort must be made to maintain a balanced system of highways, from the farm-to-market roads to the interstate highways, to serve all sorts of traffic.

TAX REVISION RECOMMENDED — Texas Research League proposes the state's unemployment compensation tax on employers be more closely relate to benefits paid former employees.

Benefit payments to unemployed have exceeded revenue for five of the last six years, a League study for Texas Employment Commission shows. However, the Texas Trust Fund, from which payments are made, cannot go broke because a surtax is imposed on all taxpayers any time the fund drops below \$225,000,000 on October 1.

League recommends extending "experience rating" of employers to lessen the threat of a flat rate surtax applied.

SECURITIES SALES HIT PEAK — Issuance of permits for sale of securities in Texas reached a high peak for 1964 during May, with \$37,062,966 authorized to 58 corporations by the State Securities Board. This was the highest monthly total since November 1962, when \$42,510,619 worth of permits were granted.

TOURIST RECORD SET — Large Texas cities attracted a majority of the record-breaking number of tourists who visited the state in 1963, Texas Highway Department reported.

Out-of-state visitors totaled 11,700,000, some 26 per cent over the previous year. They spent \$532,200,000 to show a 12.8 per cent increase over 1962.

Dallas was the stated destination of some 15.8 per cent, while 14.1 per cent were heading for Houston-Pasadena; El Paso drew 9.8 per cent and San Antonio 9.6 per cent.

Highway Department recently released this information in a colorful 16-page brochure available to the public. The booklet described results of the annual survey on the Texas Tourist Industry, and the cover depicts scenes from the states outstanding recreational areas.

SCHOOL RULING — School boards have the right to make rules about students' clothing, State Education Commissioner J. W. Edgar ruled in an appeal against an Andrews school board policy.

Mrs. Kenneth King of Andrews made the appeal which led to the ruling. Mrs. King contended that her third grade daughter, Vickie, should wear trousers to school to protect her health.

In upholding the school board, however, Edgar advised that the policy be clarified, and that clear provisions be adopted so that clothing regulation could be suspended for a student whose doctor prescribed trousers for medical reasons.

COMMISSION STUDIES PLAN TO BEEF-UP INDUSTRY — Texas Industrial Commission and the Agricultural Economics Department of Texas Tech have made a contract to study the feasibility of increasing the meat packing industry in Texas, with the hopes a solution can be found to alleviate beef imports faced by Texas producers.

Findings will be available in the fall of 1965.

HARDIN COUNTY MAY HAVE KEY — Texas Water Commission, releasing a report on untapped ground-water resources in Hardin County, said use of that water may be a key to future industrial expansion, as it has been in the heavily-industrialized Houston area.

"Geology and Ground-Water Resources of Hardin County," a free publication, says the potential there for further development is "tremendous."

CIVIL SERVICE SCHOOLS — Austin Postmaster Oliver Bruck advised the public against paying fees to civil service schools. It costs nothing to compete in civil service examinations, he said.

There is no school operated in connection with civil service by the Federal government and no school is given advance information which is not available to the public without cost, Bruck stressed.

TRAVEL TALK

JAMAICAN VACATION IS ECONOMICAL, LUXURIOUS

By Hulin Fowler
EDITORS NOTE: Please address your travel questions to Mr. Fowler in care of this newspaper.

This summer and fall, vacation-bound West Texans are fortunate indeed, as there are some wonderful places available to them at most economical rates.

For instance, you can enjoy a week with everything at Frenchman's Cove in Jamaica, West Indies, for \$192, but these seven days will cost the "winter tourist" up to \$1,000!

Your week with "everything" will include an air-conditioned one bedroom house that cost approximately \$50,000 to build. Luxuriously appointed, with even a stereo phonograph, each house has a kitchen — complete with all the electrical gadgets and cooking and serving ware — and a man-sized living room facing onto a luxurious West Indies setting.

Also included is your own personal maid or butler, all of your meals — featuring such entrees as duckling, beef, trout and other delicacies — many sports activities, and private beach on a fresh water lagoon.

And if that's not enough, you also receive free laundry service, parties featuring local Calypso music, private electric cart to roam the beautiful estate, a rafting trip down the Rio Grande River, and a piano in your house on request!

Incidentally, all tips are included in the \$192 per person price, a thoughtful gesture on the part of the management which will be appreciated by most travelers.

Frenchman's Cove, "discovered" not too long ago by the late Errol Flynn and other Hollywood stars, has been called by Time magazine "the most luxurious resort in the Caribbean."

The resort is a 40-acre estate bordered by the Caribbean Sea. The rainfall is lushly tropical and the average temperature, further tempered by an almost

W. M. Cosdin, assistant parks director.

Texas Water Commission reported water conservation storage in Texas reservoirs was 63 percent of capacity at the end of May and only Abilene and Wichita Falls had normal rainfall during the month.

Nursing home construction in Texas is increasing State Department of Health reported. A total of 186 homes went under construction in 1963. By June 1 this year, 94 more were under way. Department spokesmen said the needs for plush nursing facilities have been saturated, and urged people considering construction of a nursing home to contact health authorities for guidance.

U. S. Bureau of Reclamation's regional director reportedly will recommend a pipeline to San Antonio from a proposed reservoir at Cuero.

continuous ocean breeze, is 80 degrees.

The palm pillared beach is surrounded by soaring jungle cliffs with a crystalline, spring-fed river leading into the surf on one side.

Frenchman's Cove is about five hours by air from Dallas, and you can take 44 pounds of luggage on a tourist or economy ticket and 66 pounds on a first class ticket.

The special rate will last through December 1. However, when a week's summer vaca-

tion costs over \$800 less than in winter, you'll need to make reservations early for one of

Services Held Here Friday for Mrs. Minnie Worthy, 80

Services for Mrs. Minnie V. Worthy, 80, were held Friday at 2:30 p.m. at the Assembly of God Church conducted by the pastor, Rev. J. C. Amburn, and Rev. John Curtis, pastor of the Assembly of God Church in Merkel. Mrs. Worthy died at 8:30 p.m. Thursday at Star Nursing Home in Merkel where she had been a patient for about one year.

Mrs. Worthy lived with her niece, Mrs. Evelyn Byrom, from 1960 to July 18, 1963, when she moved to the nursing home in Merkel. She had been ill three weeks prior to her death.

Born June 1, 1884, in Waco, she was the daughter of Mr. and Mrs. Henry Underwood. She was married to Abe Worthy, a farmer, at Holland, Tex., in 1905. They lived at Rogers, Texas, until 1960 when they moved to Austin. They had lived in Austin three months when Mr. Worthy died.

PUBLIC SAFETY OFFICIAL SEEKS MOTORISTS HELP OVER FOURTH

MIDLAND — Major Leo E. Gossett, Commander of the 49 county, Midland Region of the Texas Department of Public Safety asked each individual motorist for their sincere help to save their own life as well as the lives of the "other fellow" this July 4 weekend.

"Operation Motorcade" will begin at 12:01 a.m. Friday, July 3 and end at 11:59 p.m., Sunday, July 5. It has been estimated that during this three day period 32 persons will lose their lives in traffic accidents in Texas. "This is only an estimate," explained Major Gossett, "and with the aid of every person that drives or walks, we can come well under this estimate."

"Our accident statistics in Region 4, as well as statewide show that over 50% of the fatal accidents are one vehicle accidents. Our records also show that in almost every fatal accident, there was one or more violations of the law. The leading violations were: Speed too fast for conditions, driving while drinking and wrong side of road. Fatigue also is a big contributing factor to our accident picture," stated Major Gossett.

The Highway Patrol Service will be strengthened by the License & Weight Service and

the Motor Vehicle Inspection Service in an effort to keep the estimated deaths from occurring.

In 1963, there were 2,729 people killed in Texas traffic accidents; this was the worst year ever recorded in Texas traffic history. Compared with the same period in 1963, we have a 15% increase in deaths and will probably have over 3,000 persons killed in Texas by the end of the year if we do not turn the trend downward.

Major Gossett stated, "If each individual would make his or her driving a personal responsibility we could reduce the estimated 32 deaths for this period and save many lives throughout the year."

Holiday Lodge Plans Open House Sunday Afternoon

TELEVISION ROOM AT HOLIDAY LODGE — Paul Buchanan, administrator and member of the corporation of Holiday Lodge, Inc., which will open Sunday, is pictured above in the television room of the new home for senior citizens. Wood paneling further accents the decor of the room which features a wood-burning fireplace. To the left of the draped window is a glass door which opens on the fenced-in patio.

Holiday Lodge, home for senior citizens, will be officially opened here Sunday, July 5, when the public is invited to open house from 2:30 to 5 p.m.

The home, located on Southwest Ave. F between Southwest Fourth and Fifth Streets, will be operated by Mr. and Mrs. Paul Buchanan, formerly of Estelline. Their daughter, Mrs. Tommy Hunt, will be of office and personnel manager.

Years of experience have gone into the planning of the physical plant, constructed by G & G Construction Company of Lubbock, builders of nursing homes throughout the state.

The home is equipped to handle adults who need only limited care as well as those who are completely invalid. Care for long-term convalescent patients, retired people, invalids, and the handicapped will be offered.

The "T" shaped, brick-veneer structure is of fire resistant construction and is on ground level. The front of the building is 264 feet long and was built at an estimated cost of \$200,000 to construct and equip. It is designed for future expansion to meet the needs of this area.

The home was planned and designed with the resident's comfort and welfare in mind. Large eight foot hallways will be equipped with hand rails for resident's convenience and safety. The spacious halls also provide for easy flow of traffic for residents, visitors and nurses.

Early American furnishings give a home-like atmosphere to the residents' rooms, eating area and entertaining rooms. The dining room, designed for group eating, features large oval maple tables with matching chairs. The television room

includes a wood-burning fireplace and overlooks the fenced-in patio.

At the entrance of the building is a large room with living-room furnishings to provide a visiting area for residents who prefer to visit with their guests there.

Twenty-eight maple dormitory-type beds and 28 white decorator hospital-type beds are used to equip the 31 rooms. The lodge offers semi-private and private rooms.

Each room is equipped with built-in lavatory and dressing table television outlet for private telephone, nursing call system with light and voice communications, and individual toilet facilities.

Other features of the home will be a game room, beauty and barber shop facilities, and both bath and shower equipped for wheel chair and stretcher patients.

The staff will include Licensed Vocational Nurses and patients will be able to receive professional medical nursing care under orders of their own doctors.

The modern-equipped kitchen with walk-in refrigerator and freezer will be able to handle special diets as well as offer a well-balanced menu. The kitchen will be under the supervision of Mrs. Buchanan.

The home is licensed by the State Department of Public Health and will participate in the Texas State Department of Public Welfare Vendor program.

A committee of the Business and Professional Women's Club, with Miss Lennie Greenway as chairman, will be serving refreshments during the open house. The Board of Community Development is sponsoring the event.

The administration invites everyone to the open house and stresses that visitors are always welcome.

All church, service, civic, and school organizations are invited and encouraged to visit and entertain the guests at the lodge. Ministers are invited to visit as often as they like and are encouraged to cooperate with a worship plan for the residents.

The Texas Department of Public Safety appeals to all drivers to mark this Fourth of July weekend as a time to review their driving habits in light of the fact that traffic accidents are at an all-time high. Serious accidents are more frequent in holiday periods, and it is estimated that 32 persons will be killed in traffic from Friday, July 3, through Sunday, July 5. This doesn't have to happen! Tragedy can be averted by remaining constantly on the alert for dangerous situations, by not taking chances and by driving in accordance with laws of safety

JULY 4th INDEPENDENCE DAY

Their rallying cry was the stirring ultimatum of Patrick Henry: "Give me liberty or give me death!" . . . their signal, "the shot heard 'round the world." They were the spirit of 1776, a spirit that has since transcended the times that nurtured it, and the nation that gave it birth. It is a spirit that is timeless and universal, the essence of man's need to be free and the master of his destiny. This spirit of 1776 won independence for the American colonies and forged them into a great Nation; it lives on in 1964, in the hearts of all men who love freedom, everywhere.

Courtesy Is Key To Safe Boating

AUSTIN, TEX. — The Texas Safety Association says that courtesy on the water is the key to safe boating. To be a courteous boater, remember that sailboats and rowboats have right-of-way over power craft in almost all cases—but if you're aboard one of these crafts, do not abuse the privilege. Keep clear of large commercial government vessels, and pilot to the right on all waters.

FAIRVIEW NEWS

By MRS. ELMER JOINER

Everything is growing in the hot summer sun, including the weeds. Crops look pretty at this writing, and as usual all farmers are busy, but it will soon be time that they should have a breathing spell.

Family night was celebrated last Wednesday night at the church, having ice cream and cake after the prayer services. Since it was served on the lawn behind the church, after eating a fill of ice cream all were wishing for a wrap of some kind. A weiner roast was suggested for next time, maybe it would not be so cold.

Mr. and Mrs. Kenneth Fugua and children, of the state of Washington, have been visiting several days with Mr. Fugua's sister, Mrs. H. L. Ford and family. Sunday they all went to Dallas for a reunion of their family.

Mr. and Mrs. Elmer Joiner made a quick trip to Odessa, last Thursday afternoon, to spend the night with their son, Mr. and Mrs. Buck Joiner and children.

Mr. and Mrs. Clois Henry and children came over from their new home in San Angelo, Saturday afternoon, to eat supper with his parents, Mr. and Mrs. E. A. Henry, returning home that night. Mrs. Henry was telling about the little grandson, John, age four, who loves to catch all kinds of bugs, frogs, etc. Recently he caught a stinging scorpion, much to his sorrow.

Mr. and Mrs. Winson Gray went to Graham, Sunday, to attend a family reunion of Mrs. Gray's relatives.

Mr. and Mrs. Hill, of Jalisco, New Mexico, and three children, were visitors of the Jack Wright family last week, they were also guests at the ice cream supper Wednesday night, at the church.

Another guest Wednesday night was Raymond Nichols, of Hamlin, who came with Buster Mackey, who is visiting with the Grays.

Last Thursday was the Rally Day for the Jones County H. D. Clubs, which was a very enjoyable day, as this writer was one of those attending. The highlight of the day's program was a colored girl, soloist, Betty Jean Williams, who was a 1964 graduate of Anson High School, who was presented by the Sunshine Club, of Anson, with Mrs. Ruth Pittard accompanying her on the piano. Betty Jean has a wonderful voice and our wishes go with her as she enters college, she could go far with a voice like hers, if she has a few lucky breaks.

Mr. and Mrs. Delbert Martindale and three little sons, of Beeville, ate breakfast with her uncle, Mr. and Mrs. Elmer Joiner, Monday morning. They were enroute to Lubbock, where they spent several days with her folks. Mr. and Mrs. Henry Kee, before that they had spent about two weeks in Lakeview, Oregon, with his folks, being his first visit home in six years, and having two sons that the grandparents had never seen.

Rev. and Mrs. Kenneth Leverett and girls, will leave the first of the week, on vacation. The Rev. J. E. Bagley, retired Baptist Evangelist, of Abilene, and step-father of Mrs. Leverett, will fill the pulpit next Sunday and Sunday night, in the absence of the pastor.

Mrs. Woodrow Goodwin was able to be in preaching services Sunday night, after being absent some time, recuperating from surgery. She still has to take it easy but is beginning to feel like she might be well again some day, which is the first step toward recovery.

Watch Out For Divers

AUSTIN, TEX. — The Texas Safety Association reminds boatmen that a red flag with a white diagonal stripe bobbing about in the water means a diver is under water in the area. If you don't, you could cut an all line supplying a diver or injure the diver.

Tips For Bike Riders

AUSTIN, TEX. — The Texas Safety Association has the following safety tips for bike riders: Ride with traffic and keep to the far right of the road; do not weave or stunt; obey all traffic signs, signals and regulations; and keep your bike in good condition at all times.

Several Different Recreational Areas In Holiday Lodge

Residents at Holiday Lodge will have a choice of recreational areas. A room with wood burning fireplace just off the dining room includes a television set for the residents' enjoyment. The room is furnished in Early American furniture and overlooks a fenced-in patio.

At the entrance of the new

PHILOSOPHER CLAIMS TO HAVE WORLD-WIDE SCOOP ON RESIGNATION IF NIKITA KHRUSHCHEV

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route 1 claims to have some inside information this week.

Dear editor:

I never was much for trying to be first with the news, I figure yesterday's newspaper is as full of news as today's if you haven't seen it yet, or last week's too for that matter, but since editors seem to go for such things, I am pleased to enable The Herald to break the news world-wide that Premier Khrushchev of Russia is going to resign.

I don't know why all the wize speaking in Denmark last week, he said: "If Russia's farm problems aren't solved in the next seven or eight years, I will resign."

This makes it definite. No country's farm problem was ever solved in seven or eight

years, and as far as I can tell, not in seven or eight centuries either. I've never seen a farm problem that couldn't outlast any man or any country.

No farm problem is ever really solved permanently. Most of the time you just plow around it or move to town and take up barbering or open a law office.

However I will say this for Mr. Khrushchev. You notice he didn't say fifteen or twenty years ago he'd resign from his party if it didn't solve the farm problem in seven or eight years. He waited till he was 70 years old, and in eight more years he'll be 78 and it'll be time to resign anyway.

The trouble with the farm problem is that its main ingredients, land and weather, aren't members of any organized system of government.

If Mr. Khrushchev plans to resign in despair, let him, I

intend to stay right here with this Johnson grass farm and its unsolved problems. I've found that if a man puts his hand to it, he can be just as much a problem to his farm as it is to him.

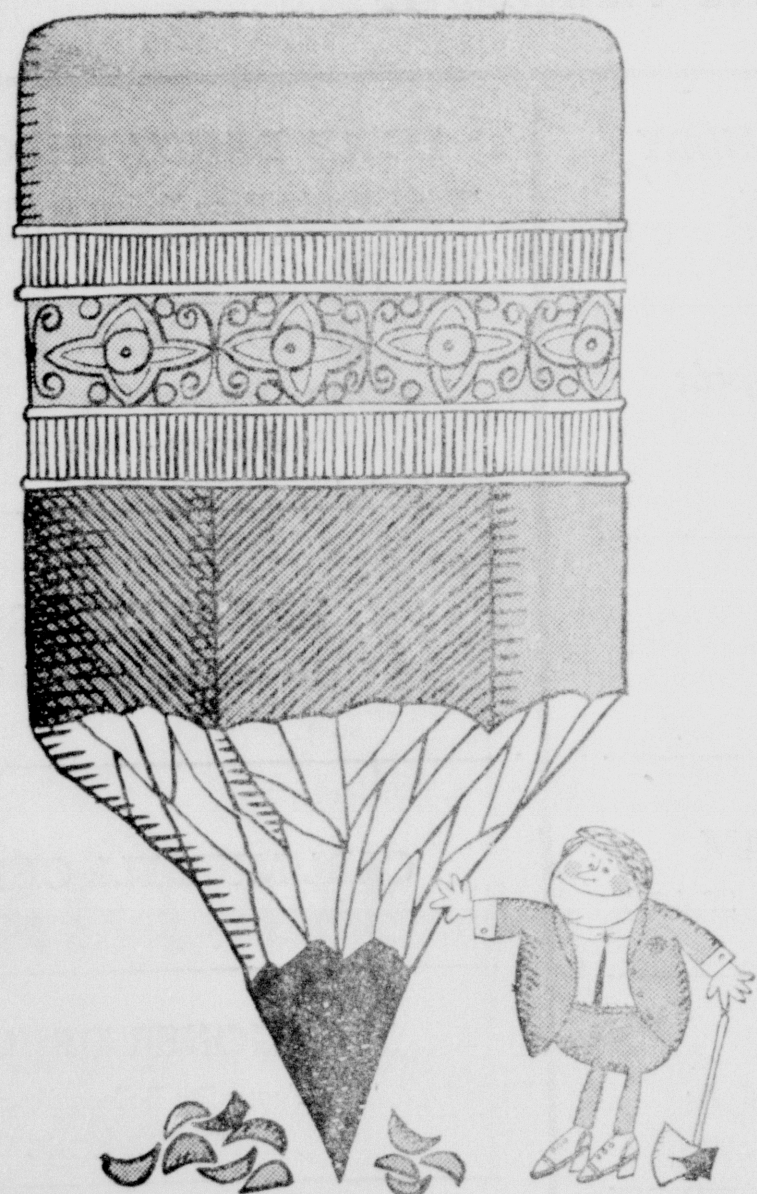

Yours faithfully,
J. A.

BE COURTEOUS TO TOURISTS

AUSTIN, TEX. — The Texas Safety Association urges Texas drivers to display courtesy to tourists in our state. Many of them will be driving on our streets and highways for the first time and frequently slow down in traffic to check road signs and street markings. Be patient and courteous to these drivers — you may be traveling in their state some day and need the same kind of courtesy.

BEACHED... and forgotten!

This old forgotten boat is almost buried in the reeds. Can this boat in any way be compared to our talents? What of these talents that God has given us? Have they been beached, forgotten, buried?

Heaven expects us to help in this matter of creating a better world where brother helps brother by using to the fullest extent the talents He has bestowed upon us. God always provokes and prods mankind to do good works, and accomplish great things. And He says that if we dedicate ourselves to this matter He will help. But the decision to use our talents and develop them is our choice.

Attend church this Sunday and begin to learn how God would have you use these gifts He has given you.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN, Tex. — Traffic accidents will kill 32 persons in Texas over the three-day July 4 weekend, if Texas Department of Public Safety estimates prove correct. DPS Director Homer Garrison Jr. urges Texans to make the July 4 holiday weekend the turning point away from a two-year upward trend in fatal traffic accidents.

Garrison describes the present traffic situation as "critical."

"Operation Motorcade" will be in effect from 12:01 a.m. on July 3 through Sunday, July 5, he announced, "in an effort to focus public attention on added hazards of holiday road traffic and to encourage safety consciousness among drivers."

Additional highway patrolmen from the license and weight and motor vehicle inspection service will supplement the regular patrol staff over the holiday period.

NEW AUTO INSURANCE RATES SET — Texas automobile owners will pay less for auto insurance beginning August 1.

State Insurance Board and industry spokesmen agreed on the new rates, which will average 1.2 per cent cheaper statewide than last year.

Board estimated motorists will save \$3,000,000 in premiums compared with 1963. However, rates will vary from area to area.

Liability insurance rates reflect a statewide increase of 3.8 per cent, and medical payment coverage will increase about 8.7 per cent. Collision coverage will be reduced .5 per cent.

Overall reduction in rates is due primarily to a 15.5 per cent cut in comprehensive coverage, due to low wind and hail damages last year.

AUSTIN, Tex. — U. S. Supreme Court's decision ordering both houses of state legislatures be selected on strict population basis will have a far-reaching effect on the Texas Legislature, particularly the senate.

In the upper house, no county presently is entitled, by the Texas Constitution, to more than one senator. Lt. Gov. Preston Smith noted that under the

new ruling five of the heaviest populated counties would be entitled to 12 of the 31 state senate seats, leaving 19 senators for the other 249 counties. This would create some senatorial districts 300 miles wide. Senate districts now vary from 147,454 to 1,200,000 population.

"The high court's laudable aim of equal representation for all citizens cannot be maintained in such circumstances," the lieutenant governor said. "Equality will be theorized only. No senator could serve such a great area as adequately at three or four senators (or even one) can serve a single county."

Lt. Gov. Smith promised to ask other lieutenant governors to petition Congress for a review and "practical relief." A similar resolution may be brought before presiding officers of House of Representatives by Texas House Speaker Byron Tunnell. However, it is doubtful how Congress could intervene except by submitting a constitutional amendment spelling out authority for states to have real bicameral (two-house) legislation if they want to.

Texas legislative committee already is at work determining how best to comply with a prior Supreme Court decision ordering congressional districts be formed on the basis of population only. Its work may be expanded to include a look at legislative districts as well.

OIL PRODUCTION ROLLED BACK — July oil production will be cut back to the lowest level since March 1963, by order of Texas Railroad Commission.

In response to purchasing forecasts by 13 major companies, the Commission set July maximum production at 27 per cent potential, or 2,788,685 barrels daily, compared with the present 2,845,571 barrels.

Presidents of five Texas producers' associations declared the decision, "regrettable," and said it would hamper attempts to get the U. S. Congress to effect a "very substantial reduction" in oil imports.

Commissioners also scheduled a July 16 hearing on the 1947 yardstick for fixing oil field allowances.

HIGHWAYS — Texas highways are now valued at \$4,500,

000,000, Chairman Herbert C. Petry Jr. of the Highway Commission announced.

Petry said every effort must be made to maintain a balanced system of highways, from the farm-to-market roads to the interstate highways, to serve all sorts of traffic.

TAX REVISION RECOMMENDED — Texas Research League proposes the state's unemployment compensation tax on employers be more closely relate to benefits paid former employees.

Benefit payments to unemployed have exceeded revenue for five of the last six years, a League study for Texas Employment Commission shows. However, the Texas Trust Fund, from which payments are made, cannot go broke because a surtax is imposed on all taxpayers any time the fund drops below \$225,000,000 on October 1.

League recommends extending "experience rating" of employers to lessen the threat of a flat rate surtax applied.

SECURITIES SALES HIT PEAK — Issuance of permits for sale of securities in Texas reached a high peak for 1964 during May, with \$37,062,966 authorized to 58 corporations by the State Securities Board. This was the highest monthly total since November 1962, when \$42,510,619 worth of permits were granted.

TOURIST RECORD SET — Large Texas cities attracted a majority of the record-breaking number of tourists who visited the state in 1963, Texas Highway Department reported.

Out-of-state visitors totaled 11,700,000, some 26 per cent over the previous year. They spent \$532,200,000 to show a 12.8 per cent increase over 1962.

Dallas was the stated destination of some 15.8 per cent, while 14.1 per cent were heading for Houston-Pasadena; El Paso drew 9.8 per cent and San Antonio 9.5 per cent.

Highway Department recently released this information in a colorful 16-page brochure available to the public. The booklet described results of the annual survey on the Texas Tourist Industry, and the cover depicts scenes from the states outstanding recreational areas.

SCHOOL RULING — School boards have the right to make rules about students' clothing, State Education Commissioner J. W. Edgar ruled in an appeal against an Andrews school board policy.

Mrs. Kenneth King of Andrews made the appeal which led to the ruling. Mrs. King contended that her third grade daughter, Vickie, should wear trousers to school to protect her health.

In upholding the school board, however, Edgar advised that the policy be clarified, and that clear provisions be adopted so that clothing regulation could be suspended for a student whose doctor prescribed trousers for medical reasons.

COMMISSION STUDIES PLAN TO BEEF-UP INDUSTRY — Texas Industrial Commission and the Agricultural Economics Department of Texas Tech have made a contract to study the feasibility of increasing the meat packing industry in Texas, with the hopes a solution can be found to alleviate beef imports faced by Texas producers.

Findings will be available in the fall of 1965.

HARDIN COUNTY MAY HAVE KEY — Texas Water Commission, releasing a report on untapped ground-water resources in Hardin County, said use of that water may be a key to future industrial expansion, as it has been in the heavily-industrialized Houston area.

"Geology and Ground-Water Resources of Hardin County," a free publication, says the potential there for further development is "tremendous."

CIVIL SERVICE SCHOOLS — Austin Postmaster Oliver Bruck advised the public against paying fees to civil service schools. It costs nothing to compete in civil service examinations, he said.

There is no school operated in connection with civil service by the Federal government and no school is given advance information which is not available to the public without cost, Bruck stressed.

TRAVEL TALK

JAMAICAN VACATION IS ECONOMICAL, LUXURIOUS

By Hulin Fowler

EDITORS NOTE: Please address your travel questions to Mr. Fowler in care of this newspaper.

This summer and fall, vacation-bound West Texans are fortunate indeed, as there are some wonderful places available to them at most economical rates.

For instance, you can enjoy a week with everything at Frenchman's Cove in Jamaica, West Indies, for \$192, but these seven days will cost the "winter tourist" up to \$1,060!

Your week with "everything" will include an air-conditioned one bedroom house that cost approximately \$50,000 to build. Luxuriously appointed, with even a stereo phonograph, each house has a kitchen — complete with all the electrical gadgets and cooking and serving ware — and a man-sized living room facing onto a luxurious West Indies setting.

Also included is your own personal maid or butler, all of your meals — featuring such entrees as duckling, beef, trout and other delicacies — many sports activities, and private beach on a fresh water lagoon.

And if that's not enough, you also receive free laundry service, parties featuring local Calypso music, private electric cart to roam the beautiful estate, a rafting trip down the Rio Grande River, and a piano in your house on request!

Incidentally, all tips are included in the \$192 per person price, a thoughtful gesture on the part of the management which will be appreciated by most travelers.

Frenchman's Cove, "discovered" not too long ago by the late Errol Flynn and other Hollywood stars, has been called by Time magazine "the most luxurious resort in the Caribbean."

The resort is a 40-acre estate bordered by the Caribbean Sea. The rainfall is lushly tropical and the average temperature, further tempered by an almost

continuous ocean breeze, is 80 degrees.

The palm pillared bungalow surrounded by soaring jungle cliffs with a crystalline, spring-fed river leading into the surf on one side.

Frenchman's Cove is about five hours by air from Dallas, and you can take 44 pounds of luggage on a tourist or economy ticket and 66 pounds on a first class ticket.

The special rate will last through December 1. However, when a week's summer vaca-

tion costs over \$800 less than in winter, you'll need to make reservations early for one of the 18 guest houses on the estate.
